

# Mobile Deposit

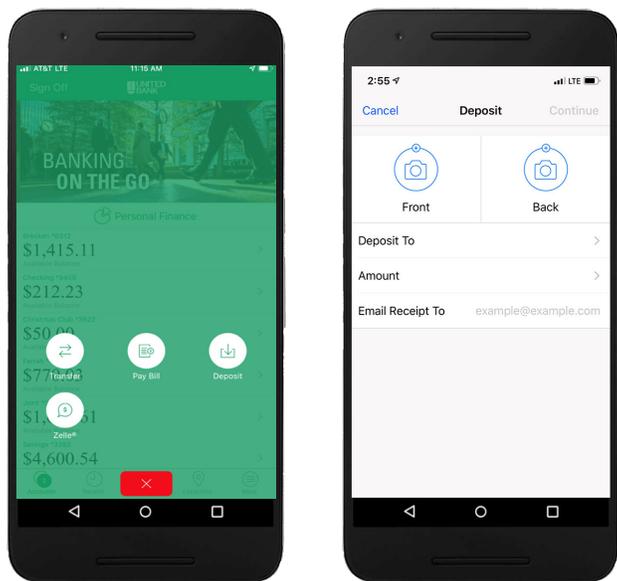

Deposit checks securely with Mobile Deposit. It's easy...just snap, tap and send! Deposit checks anytime, anywhere from your mobile device.

Mobile Deposit provides the same security and protection that you have with mobile banking.

## Overview

It's easier than ever to make a quick check deposit to your account. Our Mobile Deposit feature allows you to securely deposit checks using the camera on your mobile device.

## Ready to get started?

If you already have mobile banking and meet the Mobile Deposit criteria, the **"Deposit"** option is on your menu page and ready to use.

## Need to download the app?

*Bank With United* consumer app or the *Bank With United Business* app for your mobile device are available for download on the App Store or Google™ Play for United Bank customers.

## How it Works

1. Log in to the *Bank With United* or *Bank With United Business* app and select **"Deposit"** 
2. Snap a picture of the front and back of your endorsed check. Images of your checks are stored securely at the bank and not on your mobile device.
3. Enter the amount of the deposit.
4. Select the account receiving the deposit.
5. Enter the email address you would like to use to receive the confirmation. After the initial deposit, this email address will auto-fill and can be changed at any time.
6. Click **"Submit"** and you will receive a deposit confirmation message.

Funds will typically be available in the deposit account the next business day if deposited prior to the cut-off time. You will be notified automatically via email alert confirming we have received your check deposit.

As a precaution, keep the check for two weeks in the event it is needed for verification. After this time frame, it should be shredded.

United Bank does not charge additional fees for use of mobile banking. The bank charges the fees normally associated with the use of any particular banking service selected by the customer. However, third party message and data rates may apply. These include fees your wireless carrier may charge you for data usage and text messaging services. Check with your wireless carrier for details regarding your specific wireless plan and any data usage or text messaging charges that may apply. Also, a supported mobile device is needed to use the *Bank With United* or *Bank With United Business* app. Certain other restrictions may apply. See the terms and conditions in the United Bank Mobile Banking Agreement.
